

Orientation Sheet – TestRadius

Version: May 2026

Our Vision

A world where software ships instantly with complete confidence, without testing ever being a bottleneck.

Our Mission

To eliminate testing as a bottleneck by making software quality fully autonomous, starting with explainable, deterministic test selection for every engineering team.

Our Values (IMPACT Code)

Value	What It Means
I – Integrity	Be honest in all dealings; treat people fairly; honour commitments.
M – Mission	Articulate a large vision to make the world better; make it your mission to achieve that vision.
P – Pay it Forward	Proactively help others succeed by sharing wisdom from failures and successes.
A – Adaptable	Learn and improve the business continuously over time.
C – Collaborative	Work with others; practice inclusion across age, gender, race, and background.
T – Transparency	Foster a culture that openly shares reasonable operational details.

Who We Are

- **Himanshu** – Founder & CEO (ex-SDET, Cohesity/BMC)
- **Lalit** – COO (IIT Kanpur, pre-seed startup operations)
- **Rahul** – CTO (ex-Simplilearn, scaled teams 3→80+)
- **Sudarshan** – Head of Core Systems (ex-Nokia, Microsoft)

What We Expect from You (During Test Project)

- **Communicate proactively** – update us on progress, blockers, or questions
- **Take ownership** – treat this as if it were your own project
- **Be collaborative** – ask for help when needed, offer help when you can
- **Be transparent** – share both wins and setbacks

Communication & Tools

- **Primary channel:** Slack or email (daily check-ins)
- **Code repository:** GitHub (you will be added as a collaborator)
- **Project tracking:** Linear (share progress in daily updates)
- **Video calls:** Google Meet (scheduled as needed)

The Test Project Goal

This Test Project is designed to evaluate skill, personality, cooperation, and passion – in both directions. We want to see how you work, and you should see if you enjoy working with us. There is no trick. The project is real work that needs to be done; if it goes well, we will discuss a longer-term engagement.

Next Steps After the Test Project

- We will review your submission within 2 business days
- You will receive structured feedback (what worked, what could improve)
- If successful, we will propose a contract for the next milestone or an ongoing role

Questions? Reply to this email or ping on Slack. Let's build something great together.
